INNERGIZE

A LIGHTLY TANNED SKIN SUITS HIM AS WELL AS THE RIGHT RUNNING SHOE.

INNERGIZE – AS FLEXIBLE AS YOUR WELLNESS WISHES, AS VITALISING AND GENTLE AS YOUR BODY NEEDS.

Individual wellness enjoyment begins by choosing the perfect light for your needs. You have to decide whether you want to use infrared and ultra violet light combined or only infrared light for beneficial and effective heat.

The vitalising infrared light boosts your blood circulation, relaxes muscles, removes stress and supports the regeneration process after physical exertion. Innergize infrared light has a pain-reducing effect on sensitive joints and vessels and strengthens the bone structure of your entire body.

The selectable ultra violet light gives light tanning and a natural, fresh look. It supports your body's natural vitamin D production. Innergize infrared and ultra violet light gives a positive physical feeling, noticeable vitality and overall well-being.

INTELLIGENT AND INNOVATIVE THAT'S INNERGIZE – PRACTICALLY AND PERFECTLY IMMERSED IN THE WELLNESS WORLD.
